Management Desk:

Dear readers, it give me immense pleasure to present first issue of new letter “Smart SSPI”, I congratulate to Director, Principal, Teaching & Non-Teaching Staff of SSPI’s taking efforts to fulfill dreams of students. Let us think of Education of means of developing our greatest abilities. Because in each of us, there is hope & dream which is yet to be fulfilled. That can be translated in to benefit for everyone in the civilized society & greater strength of our “NATION” & it take someone special to be an educator; a person who care for other, & aim to help student to fulfill their inherent potentials. The best teacher is capable, dedicated & hardworking, along with interest in making a substantial difference in the future of student community & making the globally recognized., SSPI has lively an encouraging academic environment in which faculties & student interact to the fullest. All of us are connected by an interest in field of Polytechnic striving hard to serve the society by educating & implementing research to prevent & treat disease. The new facility is well on the way of helping future Engineer.

I once again welcome & Congratulate all team of SSPI & appeal all your reader to grab opportunity to nurture & shape career in the evergreen, noble profession of polytechnic at SSPI Parbhani.

**With Best Wishes,
Hon. Prakashdada Solanke**

President
MSPM's Chh.Sambhaji Nagar

Since it's established in 1959 the MSP Mandal has strived hard and succeeded to achieve two objectives. The first is the spread of education to the door step of the poor and needful students; the second one is imparting high quality of education.

As result it is seen that the MSP Mandal is a leading educational institute in both quality and quantity. Of late, the institute has introduced need based and employment oriented modern courses.

After succeeding in imparting traditional education of high quality, now the mandal enters the field of professional and technical education. Yashwantrao Chavan Institute of Polytechnic, Beed is our first attempt to equip our student with solid technological base which definitely shape their career.

With Best Wishes,
Hon. Satish Chavan
Secretary
MSPM's Chh.Sambhaji Nagar

Develop innovations & immense guidance from faculty, hence opening the doors for many opportunities in today's generation where there is an intersection of great challenges & great opportunity, especially in the engineering sector, we need to think out-of-the box & provide only the best our student. As the need of society & profession have change, the institute has also evolved & continue to bring about positive changes to prepare future engineer for an expanded role in the global world profession. SSPI is the only private polytechnic institute Parbhani district where the student is given opportunity for an all-around development, a rich professional & social atmosphere, space & technical support to after competition of diploma. Task of engineer is not confined to compounding & dispensing of instrument. To-day's world is full of competition, may it be any field. The global competition is a great challenge for us. Our duty is to look at these challenges with an engineer's eye and put together our potential and make maximum use of available resources. Like that we are abiding with delivery of quality education to student to achieve professional & social growths which put in the progress of country.

**With Best Wishes,
Hon. Anilbhau Nakhate
Joint Secretary
MSPM's Chh.Sambhaji Nagar**

Principal Desk:

Dear readers, it is a propitious occasion in my life to present the first issues our institute newsletter “Smart SSPI Event” in this era the industrialist. The lecture is very informative. The computer literacy of rural student is too weak even some student doesn’t know how to use computer & knowing computer is demand of time, to settle grievance institute started computer practical for the student on every Saturday. Skillful engineer IT staff is called to conduct computer practices. College arranges academic performance improvement.

In order to accomplish our vision and mission, we are prepared to take as much effort as possible for the betterment of academic scenario in India. We believe that education is an effective medium of social transformation. We get encouragement, looking at bright and successful careers of our thousands of students, which subsequently benefit the society. We feel proud that we are part of such an excellent institute, which is shaping modern India.

SSPI endowed with progressive futuristic outlook aims continual growth in the quality of all academic activities with a sense of commitment to fully meet the expectations of the students, parents and society at large.

With Best Wishes
Dr. Shahid Thekiya

2) Environmental and educational sustainability

Marathwada Shikshan Prasarak Mandal Shri Shivaji Polytechnic Parbhani on Date: 17 Feb 2025 the occasion of Science Day under the National Service Scheme under the guidance of Principal Shahid Thekiya and Prof.Varsha Jadhav Sir cleanliness campaign was implemented in the college premises.
"One step towards cleanliness"

On February 27, 2025, the second year students of the Department of Electronics and Communication under the subject 'Environmental Education and Sustainability' Under the guidance of Prof. Sutare S, Swachhta Mission was implemented.

3) Tree Plantation:

Our college has been organizing tree Plantation every year on the occasion of New Year at 6st January 2026.

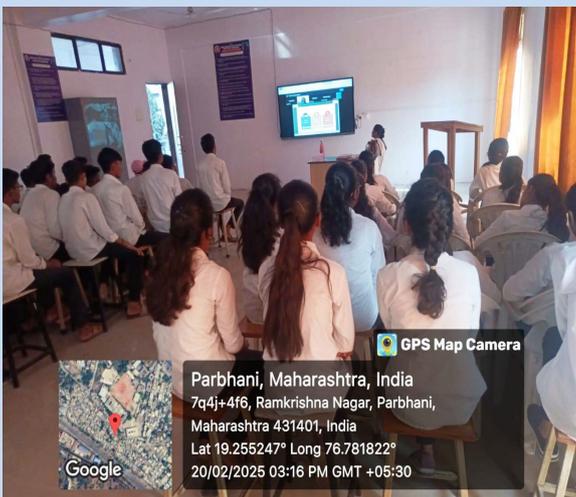

Objective: The main aim of this celebration is to focus people’s attention to the importance of planting trees & to make beautiful & healthy environment.

3) Free Health Checkup

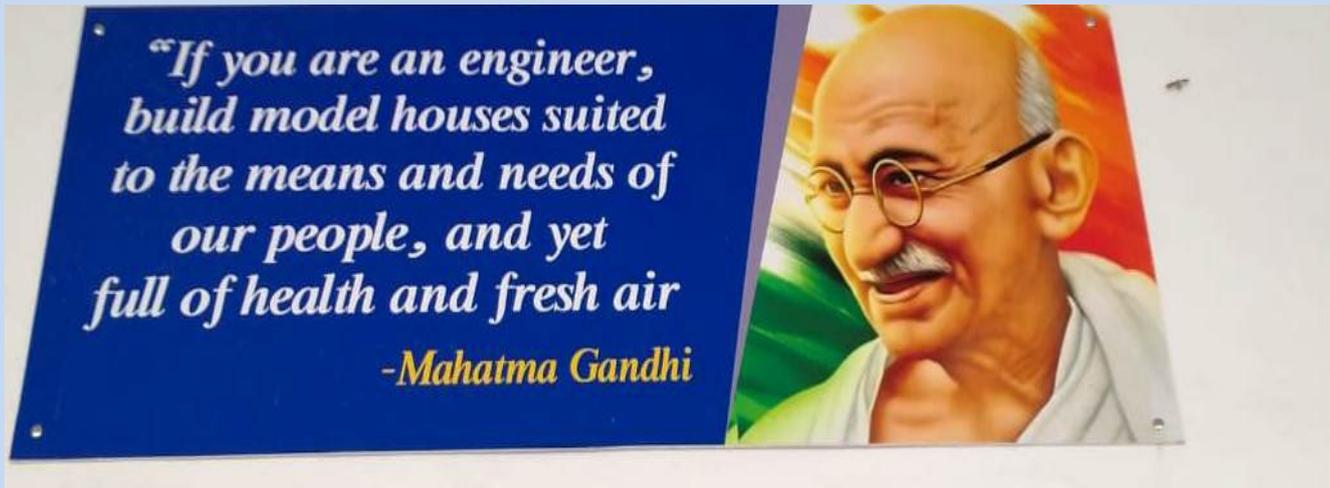

On the occasion of the birth anniversary of Shri Chhatrapati Shivaji Maharaj and the death anniversary of freedom fighter V.D Savarkar, to give importance of eye donation and free health checkup camp was conducted at Shri Shivaji Polytechnic Institute by the National Service Scheme Department under the guidance of principal Dr.Shahid

5) Financial literacy program

Our college has been organizing financial literacy program, the guidance of Principal Dr.Shahid Thekiya and Prof.Hule V on date 20/02/ 2026.

Objective: Financial literacy program focuses on the ability to manage personal finance matters in an efficient manner. It is a key life skill required for an individual's personal and professional growth. It is important because it enables us to provide for ourselves and avoids situations of debt. Where E–transaction is becoming a way of life, financial inclusion is necessary and only possible when people are financially literate

❖ Extra-Curricular Activities:

1) Inspirational Reading Day

As per declared by Government of Maharashtra every educational institute celebrated 15th October as “Reading Inspiration Day” because Reading helps everyone to grow mentally, emotionally & psychologically & open the doors of new knowledge to enlighten the mind.

❖ Awards and Achievement:

1) State level Building Model Making competition.

Congratulations Dhanraj Deshmukh CE-4K Student Got FIRST PRIZE in the Brainwaves State Level Building Model Making Competition. The competition is being organized by M. I.T Polytechnic, Chhatrapati Sambhaji Nagar ,Maharashtra

2) State Level Technical Paper Presentation Competition

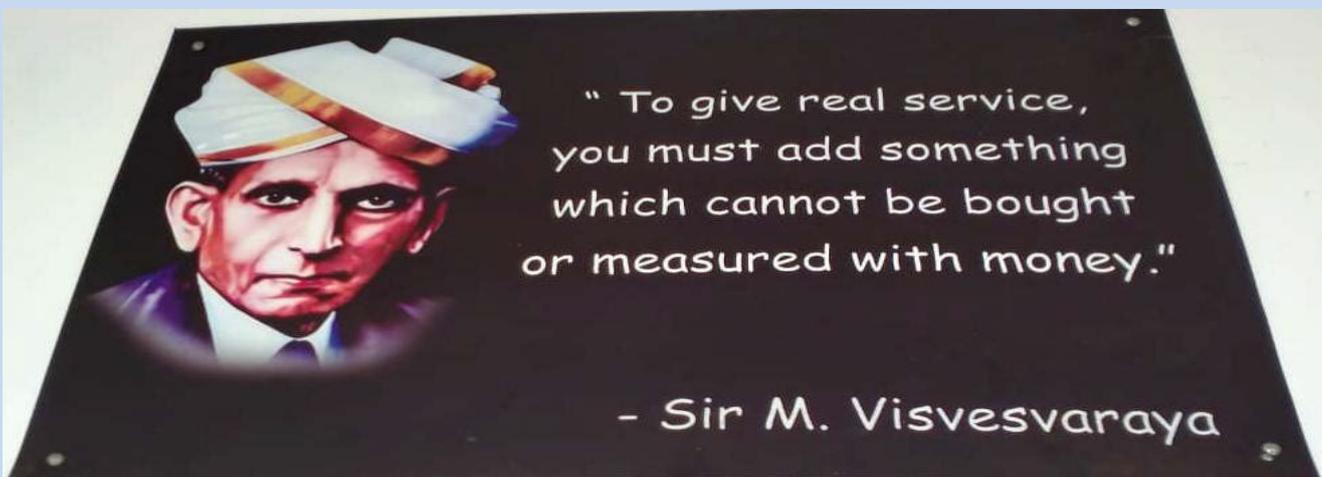

Final Year Students Pratham Dhotre and Dhanraj Deshmukh of CE dept. got 2nd Prize in MSBTE Sponsored State Level Technical Paper Presentation Competition (2025-2026) organised by MET'S Institute of Technology Polytechnic Nashik.

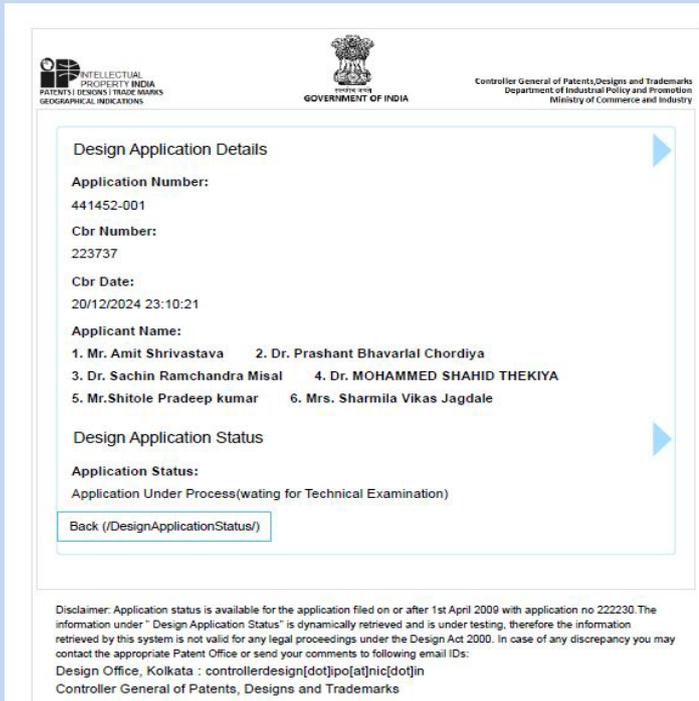

3) All India Memon Jamat Federation award

We are extremely proud of the fact that our college principal has been awarded the All India Memon Jamat Federation 'award.

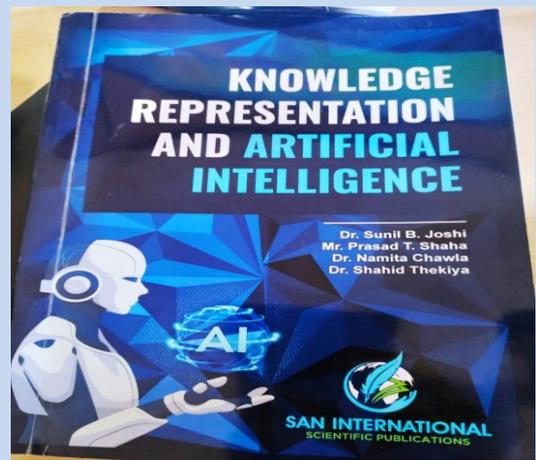

5) Patent On “Generative AI device for real time product prototyping”

We are thrilled to announce that our college principal has been granted a patent for their innovative work in 'Generative AI device for real-time product prototyping'.

Knowledge Representation and Artificial Intelligence is the book that offers us the knowledge and inspiration we require to achieve success in both academic and professional pursuits. Dr. Shahid Thekiya, the principal of our college, played a role in the publication of this book. This book was published by San International Scientific Publication.

Admission Allotment Scheme Base Load Balancing Techniques for Clustering Routing in Wireless Sensor Network

Shahid Thekiya¹, Mangesh Nikose², Prashant Chordiya³

¹Principal, Shri Shivaji Polytechnic Institute, Parbhani, Maharashtra, India.

²Associate Professor, EEE Department, Sandip University, Nashik, Maharashtra, India

³Assistant Professor, SMDYPSS's Dr. D.Y.Patil Centre for Management & Research, Pune, Maharashtra, India

The Wireless Sensor Network, often known as WSN, has a wide range of applications spanning the commercial, industrial, and social spheres. WSN clustering is an efficient and low-cost way to extend the lifespan of a network while simultaneously improving its scalability, reliability and throughput. The performance of the WSN is hindered by limited-power battery-driven sensor nodes and inaccurate cluster head (CH) location during the process of cluster creation. This paper presents the Fuzzy C-mean algorithm (FCM) for clustering as well as the Artificial Bee Colony Algorithm (ABC) for CH selection and optimization. Both of these algorithms can be found here. A number of different clustering parameters are taken into consideration by the proposed ABC. These considerations include CH energy balancing, CH load balancing, the energy GINI coefficient, connectivity, as well as intra-cluster and inter-cluster distance. Afterward, an Ant Colony Optimization (ACO) that is more energy efficient is developed to transfer the data from CH to the base station (BS). Further, the novel Admission Allotment Scheme (AAS) is utilized for energy efficient intra-cluster communication to enhance the load balancing of the network. In relationship to the conventional state of the art, the newly suggested method delivers optimum cluster selection, which results in improved network lifespan, packet delivery ratio, and throughput.

Keywords: Ant Colony Optimization, Artificial Bee Colony, Data Aggregation, Fuzzy C-Mean Routing, Intra-cluster communication, Wireless Sensor Network.

HOD'S Desk

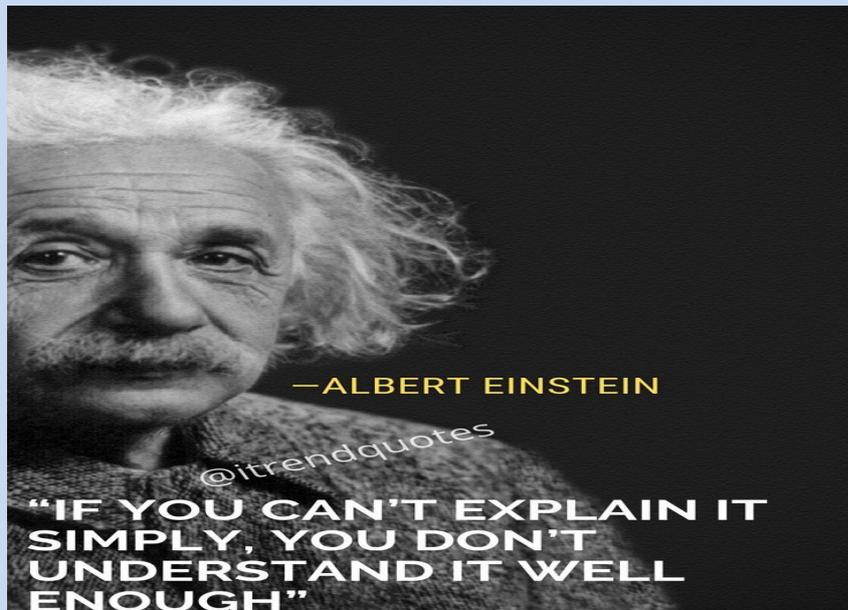

It is my pleasure to welcome you to the departments of Mechanical Engineering. Mechanical engineering is one of the oldest and broadest engineering disciplines, and plays a significant role in enhancing safety, economic vitality, enjoyment and overall quality of life throughout the world. The department has well qualified and dedicated faculty. The objective of the department is to prepare students for a successful career in Industry and Academics to meet the needs of growing technology We promote student awareness for life-long learning and to introduce them to professional ethics and codes.

HOD

Prof.Kalikar R .J.

(MECHANICAL DEPARTMENT)

I am Happy to note that our collage is published its newsletter. I appreciate the efforts taken the editorial coordinator in compiling useful information and various departmental activities, so we try to expand in all spheres of academics co- curricular extra co-activities under the guidance of principal.

HOD

**Prof.Bendsure Amol:
(CIVIL DEPARTMENT)**

Today's world is digital world each & every manual task will convert in automated task one day, so we must adapt these things as fast as we can to develop & use that application or system. to do that we needs computer engineering knowledge upon our brains to dream future world & live in that world.

Computer engineering department in SSPI provides better engineering education for student.

The need for computer science is so incredible large & its importance that girls & boys of all colors have opportunity to move into that field.

HOD

**Prof. Choudhari R.R.
(COMPUTER DEPARTMENT)**

The field of electronics and Telecommunication engineering has major contributions to the society which we are enjoying and witnessing today. The people across the world are able to connect in no time because of fast growth in this field. This importance makes the Electronics and Communication Engineering branch to stay ever green on top of all other Engineering branches as well.

This course of engineering covers the major fields of electronics like Digital Signal Processing, Embedded Systems, VLSI Technology Design, Microprocessor and Micro controllers, Microwave Engineering, RA-DARs, Digital Communication, Satellite Communication, and Mobile Communication apart from basic subjects.

My sincere thanks to the Management, Principal, all my faculty members and all my students for supporting me at every point to keep the department in high esteem.

TPO Desk

SSPI gives me, immense, pleasure to introduce my review in Fifth edition of smart SSPI newsletter.

Our institute involves teaching & supporting to students for making their carrier in technical field. Also, the institute has been giving importance to the development of ruler area by organizing various carrier guidance programs at school level.

At last very important thing is that the institute fortunate to have dedicated teachers, devoted students, and compiled supporting staff

Editors Desk

Dear Readers,

It is with great pleasure that we bring out the latest edition of our institute newsletter. This edition includes the various technical events, sport events ,NSS activities ,students achievements .we welcome your feedback and suggestions that will help us to improve and enhance our newsletter in future .i would like to thank editorial team who contributed to publish this edition successfully.

Dear Readers,

I gives me immense pleasure in bringing out the Technical Magazine-2025,an SSPI institute Magazine successfully.SSPI Technical Magazine-2025 is a perfect forum for the incluating among students and facultiesof the institute. As a part of SSPI family, I am very glad to share my views & it's my privilege to express my views about this institutes. SSPI parbhani is a well-developed institute in parbhani district. This college has been working since 2011, for door to door education & tries to reach towards needful students.

It is always tried to not only create creative students but also turns them into responsible citizens. As college has planned to achieve great success in

Prof. Kale D.O.

Student Opinion:**1. Abhishek Gangji:**

I am very glad to share my positives journey at SSPI,PBN. This is one of the reputed institutes among all. The atmosphere of this collage is full of motivation and innovation. I am greatly thankful to MSP mandal & our principal sir for providing a platform to enhance student's technical learning by organizing different.

2. Abhimanyu Muthal :

Apart from regular academics institute provides different opportunity to learn, especially the guest lectures. I liked activities like industrial visit, Hospital visit, guest lectures, Entrepreneurship development program etc., these do help in our career development. Teachers give special attention on our study & provide all necessary study material. I am thankful to Principal sir, teaching staff for giving us golden opportunity.

To our **students**, thank you for your enthusiasm, hard work, and commitment to excellence. Your Curiosity and drive are the heart of our programs and the inspiration behind our continuous efforts to enhance your educational experience.

To the **parents**, we are deeply grateful for your trust and support. Your encouragement and Involvement plays a crucial role in your children's success and in the overall vibrancy of our department. Partnership is valued beyond words.

To our **staff**, your dedication and hard work are the backbone of our department. Your Professionalism, creativity, and passion for education help shape a supportive and enriching environment for both students and faculty.

Thank You..!
